Governor

EXECUTIVE ORDER 2017-11.1

WHEREAS, many counties in North Dakota are under a drought declaration of emergency due to extreme drought conditions resulting in D3 and D4 ratings from the U.S. Drought Monitor; and

WHEREAS, these extreme drought conditions have, and will continue to, adversely and significantly impacted the State's agribusiness and livestock production, resulting in inadequate amounts of hay and water supplies necessary to sustain livestock herds; and,

WHEREAS, North Dakota livestock producers have been forced to purchase supplemental hay and water supplies hauled in from non-drought areas or forced to move herds to areas where feed and water supplies are more plentiful; and,

WHEREAS, current and forecasted drought conditions have, and will continue, to contribute to water and feed supply shortages for livestock producers in those counties under a drought declaration of emergency; and

WHEREAS, drivers of commercial trucks have been required to move livestock, hay and water supplies in greater volumes in a shorter amount of time to or from those counties under a drought emergency to enable livestock producers to maintain existing herds and to meet the needs of our State; and

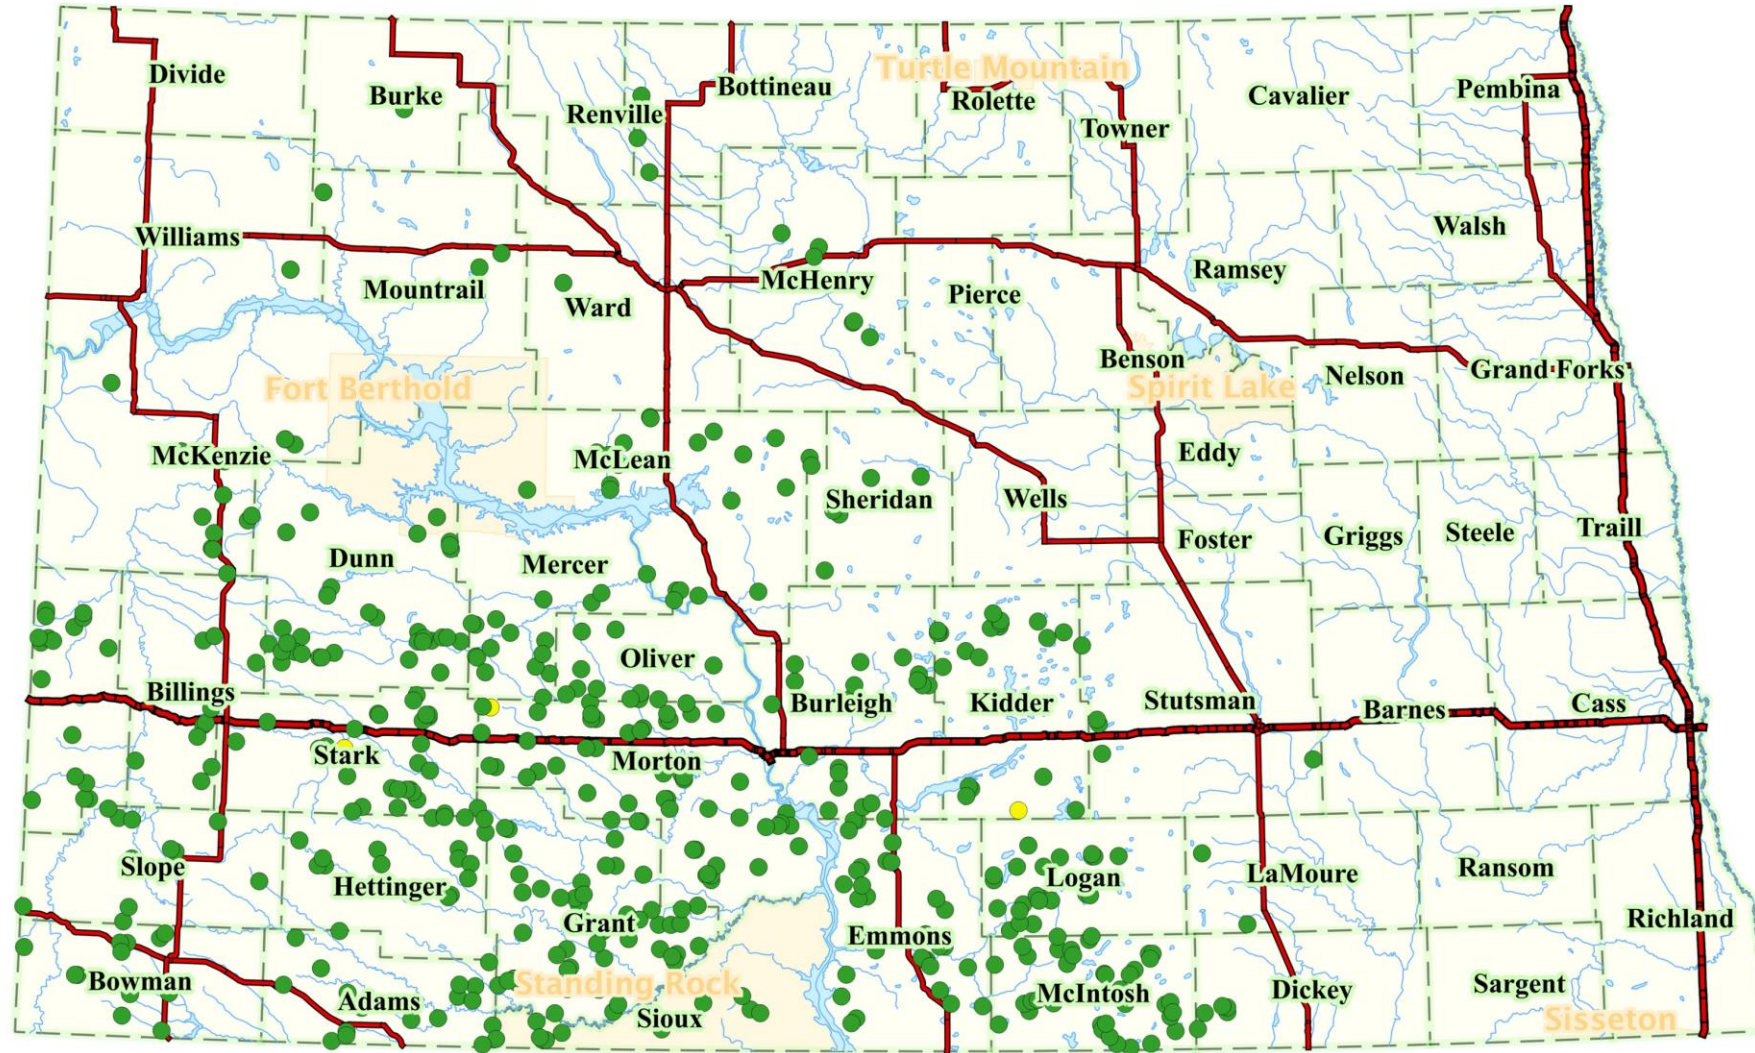

WHEREAS, it is the responsibility of the State to assist the people of North Dakota in responding to and mitigating the effects of weather emergencies, disasters, and other hardships that may face the state and its citizens.

NOW, THEREFORE, Doug Burgum, Governor of North Dakota, by virtue of the authority granted under Article V, Section 1 of the North Dakota Constitution, North Dakota Century Code § 37-17.1 hereby declares that a state of emergency exists in North Dakota that requires relief from North Dakota Century Code § 39-32-02 pertaining to hours of service and North Dakota Century Code Chapter 39-12 pertaining to weight, width and height restrictions and fees for drivers of commercial motor vehicles. Hours of service, weight, width and height restrictions and fees for drivers of commercial vehicles are hereby suspended for the transportation of livestock, hay and water supplies, on interstate and state roadways only, in extreme drought affected counties.

ND Public Finance Authority

WELCOME

North Dakota Century Code 60-04 created and established the North Dakota Public Finance Authority for the purpose of making loans to political subdivisions of the state through the purchase of municipal securities which, in the absence of the Attorney General of North Dakota, are properly eligible for purchase by the Authority. Subject to credit and program requirements, it may also elect the Authority to be a public authority for any purpose for which the public authority has legal authority to borrow money through the issuance of municipal securities. Effective August 1, 2005, the law allows the Authority to purchase certified small issue debt and to issue industrial development bonds under ND Century Code Chapter 60-07 (Industrial Development Act). The Authority, which is under the operation, control and management of the Industrial Commission of North Dakota, is a self-sustaining state agency. The code and expenses of operation of the Authority are financed with savings on projects issued and fees paid by participating political subdivisions.

Welcome to the North Dakota Department of Health website. It's amazing how public health affects our lives every day. We provide clean air and drink safe, sparkling water. Our garbage is disposed of properly. We can do our jobs in smoke-free workplaces and be confident that the food we eat in restaurants is safe. Our children are immunized against many diseases that could hurt into the heart of every parent just a few decades ago. These accomplishments are more and more due to the efforts of public health at the state and local level.
